Geometry, Topology and Dynamical Systems

Joint Seminar

Date. December 7, 14h30

Place. Room M031

Speaker. José Basto Gonçalves (CMUP)

Title. Symplectic invariants and dynamics

Abstract. I will present some recent results on symplectic invariants concerning the possibility of embedding a given set in another one, discussing their relevance for conservative dynamics.

Remark. Coffee with the speaker is served after the talk (15h30 - 16h00)
